ABOUT ME

Software Developer with 10+ years of experience in QA and Automation, recently focused on Python-based system integration (SFTP, REST APIs, Varicent ICM). Seeking to leverage expertise in automation, API integration, and cloud solutions to deliver scalable business process improvements.

EDUCATION

College

STI College Fairview
2010 – 2015

High School

First City Providential College
2006 – 2010

KEY SKILLS

Python Scripting
Varicent ICM
Functional Testing
PLSQL

CAREER HIGHLIGHTS

ACCENTURE INC.

Developed custom Python scripts to automate repetitive tasks, improving workflow efficiency and reducing manual effort.

Implemented and maintained solutions in Varicent ICM, supporting incentive compensation processes and ensuring data accuracy

Developed a tool using AI to categorized user feedbacks on a website.

Applied strong QA and testing principles to deliver high-quality software, combining automation expertise with development skills to reduce defects and improve system reliability.
